

2023 Graphic Arts/Design Related Job Exhibit Contest Guidelines

PURPOSE

The Job Exhibits Contest permits students in Career and Technical Education programs and SkillsUSA members to demonstrate the skills that are typical examples of the work being performed by a craftsperson in the field in which they are training.

GENERAL RULES AND PROCEDURE

All student job exhibits must have written documentation in the form of a notebook. Guidelines for this notebook can be found in this document.

Each student is responsible for bringing, displaying, and removing their entry in the contests. Job Exhibit participation is limited to one individual entry per person; Entry consists of one exhibit and one individual notebook.

The total number of entries per instructor can be up to three (3); a blend of Secondary and/or Postsecondary Students.

The rating of the job exhibit will be recorded on the grading sheet by the judges along with any comments the judges feel are important concerning the evaluation. The judges are strongly encouraged but not be required to give an explanation on the comments section on the appropriate rating sheet.

JUDGING CRITERIA

1. Job exhibit projects should be typical examples of the work that is done by a craftsperson in the field in which they are training.
2. Amount of difficulty, craftsmanship and time needed to achieve the objective of the project will be considered most important when judging.
3. Exhibits should show that students used a higher level of skills and knowledge to create the exhibit.
4. Documentation in the form of a Notebook for the project will be a major consideration.
(See "Notebook Specifications" on the next page)

OBSERVER RULE

Observers will not be allowed in the exhibit area while job exhibits are being judged. After the job exhibits are judged, they will be on display for viewing and may not be removed until designated time.
