

Standard Riding Mower Contest Guidelines

This contest will cover safety and procedures for operating a Standard riding mower.

The Standard riding mower contest shall consist of the following:

1. General written safety test.
2. A skill contest in which the contestant shall demonstrate:
 - a. The ability to identify basic controls and their use.
 - b. The ability to demonstrate pre-start procedures
 - c. The ability to start and maneuver the mower through an obstacle course.

All contestants will be provided the same mower, and a copy of operators manual will be sent to the instructor prior to the contest date (instructors can bring their own mower to the contest). This will allow time for familiarization of controls, maintenance check procedures, as well as safety/use and handling.

Contestants may take the safety test orally.

Each contestant must work independently without assistance from judges, teachers, fellow students or observers. Such assistance may disqualify the contestant. Contestants will stay in the holding area until their contest begins.

Participants will be rated on a basis of total scores from written and skill contests. In the event of a tie, the contestant's time will be used only as a tie breaker (**NOTE:** Time will not have an effect on contestants score).

Each instructor may enter three secondary students and three post-secondary students.

Participants will wear appropriate safety apparel:

1. Safety Glasses
2. Hearing Protection (Over the Ear)
3. Closed Toe Shoes
4. Long Pants
